The Night of the Iguana-Tennessee Williams 2009-10-30 Now published for the first time as a trade paperback with a new introduction and the short story on which it was based. Williams wrote: "This is a play about love in its purest terms." It is also Williams's robust and persuasive plea for endurance and resistance in the face of human suffering. The earthy widow Maxine Faulk is proprietress of a rundown hotel at the edge of a Mexican cliff overlooking the Pacific Ocean where the defrocked Rev. Shannon, his tour group of ladies from a West Texas women's college, the self-described New England spinster Hannah Jelkes and her ninety-seven-year-old grandfather, Jonathan Coffin ("the world's oldest living and practicing poet"), a family of grotesque Nazi vacationers, and an iguana tied by its throat to the veranda, all find themselves assembled for a rainy and turbulent night. This is the first trade paperback edition of *The Night of the Iguana* and comes with an Introduction by award-winning playwright Doug Wright, the author's original Foreword, the short story "The Night of the Iguana" which was the germ for the play, plus an essay by noted Tennessee Williams scholar, Kenneth Holditch. "I'm tired of conducting services in praise and worship of a senile delinquent—yeah, that's what I said, I shouted! All your Western theologies, the whole mythology of them, are based on the concept of God as a senile delinquent and, by God, I will not and cannot continue to conduct services in praise and worship of this...this...this angry, petulant old man." —The Rev. T. Lawrence Shannon, from *The Night of the Iguana*

Shapes in Nature-Jennifer Marino Walters 2018-08 The shape of the moon, the shapes of the stones all around. Let's see what other shapes we can discover in nature.

The Glass Castle-Jeannette Walls 2006-01-02 Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

Lizard Love-Wendy Townsend 2013-12-01 Cooper and his mom run an antique business in upstate New York, where Cooper does most of the work, since his mom tends to get lost in her own thoughts. He rides his bike, Squeaky, to garage sales looking for treasures, sets the resale prices, and orders the groceries. There's never much money left after he pays the electric bill, and he dreams of finding something that would make life easier. Then one day he comes home with a metal detector and begins

searching his backyard. What he finds sends him on an historical adventure and journey of self-discovery.

Numbers in Nature-Jennifer Marino Walters 2018-08 The number of points on a starfish or on a snowflake, the number of moons in the night sky. Let's count how many surprises nature has all around us.

If on a winter's night a traveler-Italo Calvino 2012-10-25 Italo Calvino imagines a novel capable of endless mutations in this intricately crafted story about writing and readers. If on a Winter's Night a Traveler turns out to be not one novel but ten, each with a different plot, style, ambience, and author, and each interrupted at a moment of suspense. Together they form a labyrinth of literatures, known and unknown, alive and extinct, through which two readers, a male and a female, pursue both the story lines that intrigue them and one another.

Things Seen from Above-Shelley Pearsall 2021-02 When lonely sixth grader April Boxler volunteers to help out during fourth-grade recess, she meets Joey Byrd, who walks in circles, spends recess alone, and has an unusual artistic skill.

Phenomenal-Leigh Ann Henion 2015-03-24 Elizabeth Gilbert, author of *The Signature of All Things* and *Eat, Pray, Love* "What a cool and fascinating ride. Leigh Ann Henion has tackled one of the great questions of contemporary, intelligent, adventurous women: Is it possible to be a wife and mother and still explore the world? Her answer seems to be that this is not only possible, but essential. This story shows how. I think it will open doors for many." Heartfelt and awe-inspiring, Leigh Ann Henion's *Phenomenal* is a moving tale of physical grandeur and emotional transformation, a journey around the world that ultimately explores the depths of the human heart. A journalist and young mother, Henion combines her own varied experiences as a parent with a panoramic tour of the world's most extraordinary natural wonders. *Phenomenal* begins in

hardship: with Henion deeply shaken by the birth of her beloved son, shocked at the adversity a young mother faces with a newborn. The lack of sleep, the shrinking social circle, the health difficulties all collide and force Henion to ask hard questions about our accepted wisdom on parenting and the lives of women. Convinced that the greatest key to happiness—both her own and that of her family—lies in periodically venturing into the wider world beyond home, Henion sets out on a global trek to rekindle her sense of wonder. Henion's quest takes her far afield, but it swiftly teaches her that freedom is its own form of parenting—one that ultimately allows her to meet her son on his own terms with a visceral understanding of the awe he experiences every day at the fresh new world. Whether standing on the still-burning volcanoes of Hawai'i or in the fearsome lightning storms of Venezuela, amid the vast animal movements of Tanzania or the elegant butterfly migrations of Mexico, Henion relates a world of sublimity and revelation. Henion's spiritual wanderlust puts her in the path of modern-day shamans, reindeer herders, and astrophysicists. She meets laypeople from all over the world, from all walks of life, going to great lengths to chase migrations, auroras, eclipses, and other phenomena. These seekers trust their instincts, follow their passions, shape their days into the lives they most want to lead. And, somewhere along the way, Leigh Ann Henion becomes one of them. A breathtaking memoir, *Phenomenal* reveals unforgettable truths about motherhood, spirituality, and the beauty of nature. Oprah.com "Part travel memoir, part parenting manifesto and part inquiry into those 'fleeting, extraordinary glimpses of something that left us groping for rational explanations in the quicksand of all-encompassing wonder.'"

M Train-Patti Smith 2015-10-06 From the National Book Award-winning author of Just Kids: a "sublime collection of true stories ... and wild imaginings that take us to the very heart of who Patti Smith is" (Vanity Fair), told through the cafés and haunts she has worked in around the world. Patti Smith calls this bestselling work "a roadmap to my life." M Train begins in the tiny Greenwich Village café where Smith goes every morning for black coffee, ruminates on the world as it is and the world as it was, and writes in her notebook. Through prose that shifts fluidly between dreams and reality, past and present, we travel to Frida Kahlo's Casa Azul in Mexico; to the fertile moon terrain of Iceland; to a ramshackle seaside bungalow in New York's Far Rockaway that Smith acquires just before Hurricane Sandy hits; to the West 4th Street subway station, filled with the sounds of the Velvet Underground after the death of Lou Reed; and to the graves of Genet, Plath, Rimbaud, and Mishima. Woven throughout are reflections on the writer's craft and on artistic creation. Here, too, are singular memories of Smith's life in Michigan and the irremediable loss of her husband, Fred Sonic Smith. Braiding despair with hope and consolation, illustrated with her signature Polaroids, M Train is a meditation on travel, detective shows, literature, and coffee. It is a powerful, deeply moving book by one of the most remarkable multiplatform artists at work today. Featuring a postscript with five new photos from Patti Smith

Blood on the River-Elisa Carbone 2007-09-20 Traveling to the New World in 1606 as the page to Captain John Smith, twelve-year-old orphan Samuel Collier settles in the new colony of James Town, where he must quickly learn to distinguish between friend and foe. Reprint.

I Don't Want to Eat Bugs-Rachel Branton 2016-04-08 Bugs are for the birds! Lisbon is hungry and it's hard to wait for dinner. When her animal friends try to help her find something tasty to eat, the real the problems begin! Join Lisbon on her funny misadventures. Each beautiful illustration is designed to inspire the imaginations of children. An activity page at the end of the book allows for more fun as they search for special items in the illustrations. This version of I Don't Want to Eat Bugs has been designed specifically for ebook with a fixed layout and larger text for easy reading. While this is a great read-aloud book for parents, teachers, and other adults to share with children, we have chosen fonts that are similar to the way children form letters for easy recognition as they begin to read on their own. The print book is also available in 8.5" x 11" format. Author's Note: I Don't Want to Eat Bugs was written for my daughter, who was two when I wrote this story and didn't like salad, but now she's four and a half and loves it—if I give her plenty of salad dressing! (But don't worry—this isn't a book about eating salad.) Of course birds, cats, and dogs have a very different idea of what's good to eat, but through this fun adventure, Lisbon learns there is also food meant just for her—and it's good, especially compared with all the offerings from her animal friends. My daughter and I privately call this book the "Ice Cream Story" (she LOVES ice cream so there had to be ice cream involved), and now whenever something funny happens, she says, "We should write a new ice cream story about that." And we have! I Don't Want to Eat Bugs is the first book in a planned series called Lisbon's Misadventures. I've written the next three books in the series, and Tim Petersen is hard at work creating the illustrations. Tim is obviously a fabulous artist, and I'm excited to be working with him. You can sign up on my website to learn when the next book comes out (<http://teylarachelbranton.com/>). Thank you and enjoy!

Lost Memory of Skin-Russell Banks 2011-10-04 The author of *Continental Drift*, *Rule of the Bone* and *The Sweet Hereafter* returns with a very original, riveting mystery about a young outcast, and a contemporary tale of guilt and redemption. The perfect convergence of writer and subject, *Lost Memory of Skin* probes the zeitgeist of a troubled society where zero tolerance has erased any hope of subtlety and compassion. Suspended in a modern-day version of limbo, the young man at the centre of Russell Banks's uncompromising and morally complex new novel must create a life for himself in the wake of incarceration. Known in his new identity only as the Kid, he is shackled to a GPS monitoring device and forbidden to go near where children might gather. He takes up residence under a south Florida causeway, in a makeshift encampment with other convicted sex offenders. Barely beyond childhood himself, the Kid, despite his crime, is in many ways an innocent. Enter the Professor, a university sociologist of enormous size and intellect who finds in the Kid the perfect subject for his research. But when the Professor's past resurfaces and threatens to destroy his carefully constructed world, the balance in the two men's relationship shifts. Banks has long been one of our most acute and insightful novelists. *Lost Memory of Skin* is a masterful work of fiction that unfolds in language both powerful and beautifully lyrical.

CUCKOO'S EGG-Clifford Stoll 2012-05-23 Before the Internet became widely known as a global tool for terrorists, one perceptive U.S. citizen recognized its ominous potential. Armed with clear evidence of computer espionage, he began a highly personal quest to expose a hidden network of spies that threatened national security. But would the authorities back him up? Cliff Stoll's dramatic firsthand account is "a computer-age detective story, instantly fascinating [and] astonishingly gripping" (*Smithsonian*). Cliff Stoll was an astronomer turned systems manager at Lawrence Berkeley Lab when a 75-cent accounting error alerted him to the presence of an unauthorized user on his system. The hacker's code name was "Hunter"—a mysterious invader who managed to break into U.S. computer systems and steal sensitive military and security information. Stoll began a one-man hunt of his own: spying on the spy. It was a dangerous game of deception, broken codes, satellites, and missile bases—a one-man sting operation that finally gained the attention of the CIA . . . and ultimately trapped an international spy ring fueled by cash, cocaine, and the KGB.

Sex on Earth-Jules Howard 2014-10-23 1,000 million years ago, a sexual revolution occurred on Earth. Sex happened for the first time; from this moment the world became ever more colourful and bizarre, ringing with elaborate songs and dances, epic battles, and rallying cries as the desires of males and females collided, generation after generation. All of your ancestors took part and succeeded - an unbroken chain of sex right back to the dawn of complex life on Earth. Well done you. Well done everything. The world in which we live rings, bleeds, and howls with sex. It's everywhere. Right now warring hordes are locking horns, preening feathers, rampaging lustfully across the savanna, questioning the fidelity of the ones they love. Birds are singing, flowers bloom. A million females choose; a billion penises ejaculate (or snap off); a trillion sperm battle, block and tackle. Sex made planet Earth sexy. Written in a brilliantly engaging style by biologist Jules Howard, this fascinating and highly readable work covers the how and why of sex on Earth, in all its diversity. From sperm wars to cuckoldry, hermaphrodites and virgin births, spent males, racy harems, clitoral births, hips, breasts and birdsong, penis-percussion, and those riskiest and most elusive of all traits, monogamy and true love, all this and more is discussed in Sex on Earth, as Jules takes us on a voyage of discovery of the ins and outs of animal reproduction.
